

Kevin B. Doyle

Product Design Lead & Team Leader – Enterprise Application Design, FinTech & Developer Experience

Richmond, VA | kbdoyle@gmail.com | kevinbdoyle.com | [LinkedIn](#)

Product design leader with 25+ years creating customer-first experiences across industries; able to translate technical and operational constraints into simple, scalable workflows that increase adoption, reduce friction, and improve throughput. Strong blend of design leadership and product management: Discovery, metrics, prioritization, roadmap shaping, and cross-functional delivery across engineering-heavy orgs.

EXPERIENCE

Product Design Lead & Team Leader | Fannie Mae, Sept 2022 – Present

Enterprise Developer Experience (DevEx)

Product + UX Leadership | Internal Platforms, Automation, Developer Tools

- Lead end-to-end product design for internal platforms serving 3,000+ engineers, including an Angular UI Builder, microservice catalog/shopping-cart tooling, and workflow automation capabilities.
- Own the interaction models and workflow architecture for complex systems – reducing developer friction and improving discoverability across tools and services.
- Govern enterprise Angular/Figma design system standards (consistency + accessibility) across multiple teams and products.
- Partner with engineering on AI-driven initiatives (Copilot POC + internal GenAI for knowledge discovery/tagging/guidance).

Product Strategy, Research & Metrics | DORA, Core 4, VOC, DevEx

- Led a DORA-aligned DevEx research program using the DX Developer Intelligence Platform to identify bottlenecks in developer flow, cognitive load, tool fragmentation, and context switching.
- Designed and deployed the first org-wide developer self-assessment; insights directly shaped leadership's 2025 strategy toward deep-focus, high-flow work.
- Founded the Dev Insights Team, a Voice of the Customer program establishing continuous qualitative + quantitative feedback loops across engineering.
- Helped leadership convert research findings into 2025 OKRs, roadmap priorities, and DevEx North Star metrics, creating a measurable improvement framework.

Product Ownership + Program Leadership

- Product Owner for Stack Overflow Enterprise: managed renewal acquisition and ran an engagement program delivering 125% activity growth and 21,000+ developer-hours saved/year via self-service knowledge discovery.
- Facilitate prioritization, workflow mapping, design reviews, and stakeholder alignment across engineering, security, and business partners.
- Mentor designers and improve cross-team delivery using research habits, design ops, and design systems thinking.

CORE STRENGTHS

Vision & Strategy
Product strategy & execution
Roadmaps & OKRs
AI SDLC enhancement

Measurement & Insight
Core 4 / DORA / DevEx measurement
Discovery UX – qual & quant research
Data-heavy / admin UX

Systems at Scale
Design systems governance
Workflow & systems design
Developer experience tooling

Execution & Alignment
Backlog prioritization
Stakeholder alignment
Async / remote collaboration

TOOLS

Adobe Creative Suite
Axure
ChatGPT / Claude / Copilot
DX Developer Intelligence Platform
Figma
JIRA + Confluence
Microsoft Teams
Miro / Mural
Sketch

Consulting Director, Human-Centered Design SME | CGI Federal, May 2015 – Sept 2022

User Experience Team

- Directed UX strategy for large federal platforms including Medicare.gov Compare Tools and GSA marketplaces, ensuring accessibility, trust, and regulatory compliance.
- Built and scaled design systems (Figma/Sketch) to speed prototyping and improve dev handoff quality across product lines.
- Established a VOC program for GSA; insights improved vendor workflows, navigation, and content discoverability.
- Led multidisciplinary teams through discovery, research, iterative prototyping, and launch QA.

EARLIER ROLES

Huge Inc, Experience Lead *Mar 2014 – Mar 2015*

Designed workflows, dashboards, and enterprise platforms for financial and engineering clients; conducted research, journey mapping, and usability testing.

LivingSocial, Experience Lead *Jun 2012 – Mar 2014*

Designed internal tools and operational dashboards; reduced processing time by 50%+ through workflow improvements and close engineering partnership.

NavigationArts, Three Pillar Global, CCPace, Nextel, AOL *2000 – 2012*

UX and product design leadership across financial, nonprofit, and public sector products; focused on accessibility, trust, and multi-device responsiveness.

EDUCATION & TRAINING

- Virginia Commonwealth University – BFA, Art Education
- Human Factors International – Certified Usability Analyst (CUA)
- ScrumAlliance – Certified Scrum Master (CSM)
- DesignLabs – Advanced Figma
- DesignLabs – Data-Driven Design
- CenterCentre – UX Leadership and Influence, with Jared Spool
