

Kevin B. Doyle

Product Design Leader — Developer Experience, Enterprise Platforms, Internal Tools

Richmond, VA 703.581.5386 kbdoyle@gmail.com kbdoyledesign.myportfolio.com

I design for people who didn't choose their tools and can't switch — developers, agents, and employees who spend their workday inside systems built for them, not by them. 25+ years leading product design across enterprise SaaS, federal platforms, financial services, and developer experience. I turn technical and organizational constraints into workflows people can actually use, and I build the research infrastructure that tells a design org what's actually happening instead of what leadership assumes is happening.

Product Design Lead & Team Leader

Fannie Mae

ENTERPRISE DEVELOPER EXPERIENCE (DEVEX) · SEPTEMBER 2022 – PRESENT

PRODUCT & UX LEADERSHIP

- Lead end-to-end product design for internal platforms serving 3,000+ engineers, including an Angular UI builder (DragOn), a microservice customization catalog (Chassis CodeGen), and workflow automation tooling.
- Own the interaction models and workflow architecture for these platforms, reducing developer friction and improving discoverability across tools and services.
- Govern enterprise Angular/Figma design system standards for consistency and accessibility across multiple teams and products.
- Partner with engineering on AI-assisted development initiatives, including internal GitHub Copilot, Kiro, and Codex pilots.

RESEARCH & STRATEGY

- Founded the Dev Insights Team, a voice-of-customer program that grew from a 45-developer panel to 450+ active participants.
- Led a DORA-aligned developer experience research program using the DX Developer Intelligence Platform to identify bottlenecks in flow, cognitive load, and tool fragmentation.
- Designed and deployed the org's first developer self-assessment; the results directly shaped leadership's 2025 strategy toward deep-focus work and anchor current CIO OKRs.

CORE STRENGTHS

Product strategy & execution
Roadmaps & OKRs
Backlog prioritization
Discovery UX (qual & quant research)
DORA / DevEx measurement
Workflow & systems design
Design systems governance
Data-heavy / admin UX
Developer experience tooling
AI SDLC enhancement
Stakeholder alignment (Eng, Security, Ops)
Async / remote collaboration

TOOLS

Figma
Adobe Creative Suite
Axure
JIRA + Confluence
Miro
Mural
Sketch
Microsoft 365 Copilot

FANNIE MAE, CONTINUED — PRODUCT OWNERSHIP

- Product Owner for Stack Overflow Enterprise: negotiated the engagement and ran the adoption program, delivering 125% activity growth and an estimated 21,000+ developer-hours saved per year through self-service knowledge discovery.
 - Shepherded the DX Intelligence Platform through enterprise security and procurement review.
 - Facilitate prioritization, workflow mapping, and design reviews across engineering, security, and business stakeholders.
 - Mentor designers on research habits, design ops, and design systems thinking.
-

Consulting Director, Human-Centered Design SME

CGI Federal

USER EXPERIENCE TEAM · MAY 2015 – SEPTEMBER 2022

- Directed UX strategy for large federal platforms, including Medicare.gov Compare Tools and GSA marketplaces, balancing accessibility, trust, and regulatory compliance.
 - Built and scaled Figma/Sketch design systems to speed prototyping and improve engineering handoff across product lines.
 - Established a voice-of-customer program for GSA; findings improved vendor workflows, navigation, and content discoverability.
 - Led multidisciplinary teams through discovery, research, iterative prototyping, and launch QA.
-

Experience Lead

HUGE Inc

MARCH 2014 – MARCH 2015

- Designed workflows, dashboards, and enterprise platforms for financial and engineering clients; conducted research, journey mapping, and usability testing.
-

Experience Lead

LivingSocial

JUNE 2012 – MARCH 2014

- Designed internal tools and operational dashboards for engineering teams, including Rearview, a systems-monitoring platform used during live incidents.
-

Earlier Roles

NavigationArts, Three Pillar Global, CCPace, Nextel, AOL

2000 – 2012

- UX and product design leadership across financial, nonprofit, and public-sector products, with a focus on accessibility, trust, and multi-device design.

EDUCATION & TRAINING

Virginia Commonwealth University — BFA, Art Education

Human Factors International — Certified Usability Analyst

Scrum Alliance — Certified Scrum Master

DesignLab — Advanced Figma

DesignLab — Data-Driven Design

CenterCentre (Jared Spool) — Win Stakeholders & Influence Decisions

SELECT CLIENTS

AARP, AXA, Capital One, Credit Suisse, GSA, Medicare.gov (CMS), Navy Federal, PBS
